affordable healthcare

SHILPA MEDICARE LIMITED

ENVIRONMENTAL POLICY

Shilpa Medicare Limited aims to achieve the highest standards of environmental performance in the interest of employees, owners, neighbours, the public at large or the natural environment itself.

We will make every effort to fully comply with the terms of local pollution control board norms and with other applicable and relevant environmental legislation.

By preparing and implementing environmental policies, systems, procedures and regularly reviewing them at senior management level, we will administer a continuous improvement programme designed to minimize the impact of our operations on the environment.

The environmental implications of introducing new process and product will be carefully and cleaner technologies will be utilized where possible, waste avoidance, waste reduction and minimization initiatives will be vigorously perused in accordance with the best Eco-efficiency practices.

Materials and energy used in the manufacturing and associated activities will be carefully conserved. This will be done by optimizing product yield, maximizing the recycle of materials where this is feasible and culminating, leaks, spills and reworks.
